Certifications

Web development

Internshala

June 2023 - July 2024

I completed a web development course coveringHTML, CSS, Bootstrap, DBMS, PHP, JS, React, and Final Project modules. I gained hands-on experience in building user-friendly websites and developing modern web applications

Data Structures

Internshala

June 2023 - August 2023

I completed a data structures course, gaining proficiency in fundamental concepts and algorithms. This equipped me with essential skills for organizing and managing data efficiently in software development.

Languages

English

Hindi

Bachelor's degree holder in Computer Science with expertise in web development, data structures, and data science. Proficient in HTML, CSS, JavaScript, Python. Skilled in building responsive web applications and conducting data analysis. Strong problem-solving, teamwork, and communication abilities. Committed to continuous learning and growth in the technology sector.

Education

Jaypee University of Engineering and Technology

October 2020 - May 2024

Bachelor of Technology

Computer Science and technology

6.3 CGPA

<https://www.juet.ac.in/>

During my B.Tech in Computer Science and Engineering, I completed coursework in data structures, algorithms, database

management systems, software engineering, and web development. I actively participated in coding competitions and group

projects, honing my problem-solving, teamwork, and communication skills. Additionally, I attended workshops and seminars

on emerging technologies to stay updated with industry trends. Achieved a notable CGPA of 6.3

Arcadia Acadmey

April 2019- March 2029

PCM

PCM

75%

Completed 12th grade with a focus on Physics, Chemistry, and Mathematics (PCM). Demonstrated strong analytical thinking and problem-solving skills. Achieved commendable academic performance.

Projects

Software Developer (Golang)

December 2023 - December 2023

Fast, scalable e-commerce platform

built with Golang for efficient product management and secure transactions.

<https://github.com/SaranshGupta123/Golang-Ecommerce-Website>

GoLang Ecommerce is a fast and scalable e-commerce platform developed in Golang. With efficient product management and secure transaction capabilities, GoShop offers a seamless shopping experience for users.

Go, Golang, Web developmen, html, css, javascript, reactjs, backend, nodejs

Travel Website Development

October 2023 - December 2023

Simplifying trip planning and booking with an intuitive interface and real-time information on flights, hotels, and attractions

<https://github.com/SaranshGupta123/Travelling-Website>

Travel Website is a user-friendly travel website designed to simplify trip planning and booking processes. Offering real-time information on flights, hotels, and attractions, TravelX streamlines the travel experience for users worldwide.

html, css, javascript, nodejs, reactjs, dbms, backend, mysql, php

Movie Website Development

October 2022 - November 2023

React.js-based movie website with user authentication, search functionality, and ratings.

<https://github.com/SaranshGupta123/Movie-Website>

MovieMania is a React.js-based movie website featuring user authentication, search functionality, and ratings. Designed to provide users with a seamless movie browsing and discovery experience.
